

TecO's Particle Computer Components Numbering Scheme

Every TecO Particle Component has its unique 8-bytes Identification Number (ID). This ID is composed as follows:

1	229	54	139	0	0	0	0
Board ID		Unique ID					

Whereas **Unique ID** is a unique 6-Byte identification number of the particular Board. **Board ID** consists of:

Board ID (16 bit)															
Byte 1								Byte 2							
7	6	5	4	3	2	1	0	7	6	5	4	3	2	1	0
Board Type (7 bit)							Board Version (9 bit)								

Valid **Board Types** are:

Board Type	
1	Particle
2	SSimp Small
3	SSimp Medium
4	Spart

Board Version is the Hardware Board Version of the respective Type.
